

技术要求

1.物料号:

2.产品名称: D7圆形发射开关说明书 中性英文

3.材质: 125G铜版纸印刷

4.尺寸: 70*80mm

 <p>Q7 Series Kinetic Switch INSTRUCTIONS</p>	<p>Product Description</p> <p>The Q7 series switch is a push button style kinetic energy switch that uses micro-energy acquisition technology without battery. The switch can pair with Ebelong controllers to work, and can also be used as doorbell transmitters and trigger button in the security field.</p> <p>Product Parameters</p> <p>Work Type: Push Button Type Power Supply: Self-powered(No battery) Modulation System: FSK Communications rate: 250K Number of keys: 1 key Working Frequency: 433MHz Working Temperature: -20°C~+55°C Control Distance: 80m (outdoor) 25m (indoor) Life time: >100,000 times Dimension: 62*62*16 mm</p>	<p>Installation</p> <p>Use the double-side adhesive tape inside the package to paste the switch on the stable, smooth and clean surface.</p>  <p>①Attach double-sided tape to the back</p>  <p>②Stick the switch on a clean surface</p>	<p>Pairing with controller</p> <p>The Q7 series switch need to be paired with wireless controller. The pairing method is to press and hold the controller "pairing button" for 3 seconds, release it when the indicator light flashes, and then press a button of Q7 switch once (do not press quickly or continuously). The indicator light goes off, which means that the pairing is successful. Then you can control the wireless controller by this button.</p>  <p>Other instructions</p> <p>The Q7 series switch does not support dimming control, only support the control on/off of lamps.</p>	<p>CERTIFICATE INSPECTED</p>
